"when **Innovation** meets **Problem Solving**,  
Technology facilitates **Nation Building**"

Innovation . Problem Solving . Nation Building

12<sup>th</sup> February 2017

Mr Emmanuel Yusufu  
Covenant University  
Otta

Dear Emmanuel,

## Congratulations! - The E7 Foundation Innovation Challenge (2016)

On behalf of E7 Foundation, we'd like to congratulate you on winning the recently concluded E7 Foundation Innovation Challenge (2016).

We are delighted you participated, expressed the values of Innovation, Problem Solving & Nation Building while also demonstrating a heart for Nigeria through the solution you described.

The E7 Foundation anchors on Innovation, Problem Solving and Nation Building as you already know. Again, we'd like to congratulate you for emerging as our selected winner for the Innovation Challenge (2016). Accompanied with this letter is a printed certificate and a prize.

It doesn't stop there. Our core programme for the year is the E7 Foundation Innovation Programme. This is open to all final year students in the Electrical & Information Engineering department of your University. You are therefore automatically enrolled.

The E7 Foundation Innovation Programme encourages you to develop an ICT solution that is innovative, while also aiming to solve a problem in Nigeria. Through a shortlist process and presentation event, a winner will also emerge. The winner will receive an award, recognition, some sense of pride and monetary rewards. Please share this message with others in your department.

All information on the E7 Foundation Programme is on our website [www.e7foundation.com](http://www.e7foundation.com). This is where we publish all news and updates. You can contact us for any questions.

Once again, thanks for participating in the E7 Foundation Innovation Challenge (2016) and congratulations for emerging as the winner.

Thanks.

A handwritten signature in black ink, appearing to read 'Oluwaseun Feyisetan'.

Oluwaseun Feyisetan  
Director, Innovation

# Award presented to Emmanuel Yusufu

for completing and winning the  
E7 Foundation Innovation Challenge (2016)  
but also demonstrating our values of  
Innovation, Problem Solving & Nation Building
